

# Threads n Scissors

## Basic Cutwork Lace Tutorial

### Method

Hoop 2 layers of water soluble stabilizer and your fabric. Make sure they are hooped tight and stay that way throughout the whole process of stitching out.

Stitch the first color of the design. This is a dye line.

### Materials

**Suitable fabric of your choice**

**Water soluble stabilizer**

**Embroidery Thread - use the same upper thread and bobbin thread**

Take the hoop off the machine but do NOT unhoop the fabric. Carefully cut away the fabric. Please make sure you do NOT cut the water soluble stabilizer beneath it.
