

Threads n Scissors

Chest Jewellery Boxes

Method

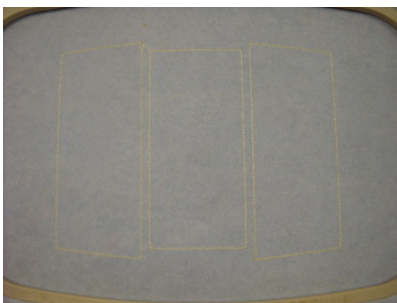

*Color stops have been put into the designs so the machine stops between sections. I used one color for the dye lines and edging and another for the motif.

Use colors of your choice.

Use the following steps to stitch out all the pieces for the Chest Jewellery Box. Design 1 pieces are for one box and Design 2 pieces are for the second box.

Step 1

Hoop a single layer of cutaway stabilizer. Stitch the first color. This is a dye line. Place a piece of thin batting and a piece of fabric over the dye line. I used masking tape to hold into place. You can use 505 temporary adhesive spray if you prefer. Stitch the next color. This holds the fabric and batting in place. Stitch the motif.

Materials

Cutaway Stabilizer

Thin Batting

Fabric of choice

Embroidery Thread

Masking Tape

**Decorative Beading
(optional)**

**Magnetic clip or press
stud**

Threads n Scissors

Place a piece of cutaway stabilizer and fabric under the stitched area on the underside of the hoop. Use masking tape or 505 temporary adhesive spray to hold into place. Stitch the next color. Trim away excess fabric from both sides of the hoop. Stitch the last color. Cut the piece out of the stabilizer.

Pieces to stitch out:

- 2 x Design a
- 1 x Design b
- 2 x Design c
- 1 x Design d
- 1 x Design e
- 1 x Design f

Assembling the Chest

Either sew the pieces together or use hot glue.

Put design pieces d and e together. Add a piece of bead trim to the middle join and around the edge (optional) This makes the lid.

Threads n Scissors

Put the magnetic clip or press stud in the piece Design f. Stitch or glue Design f to the matching piece on inside the lid.

Now join the lid to 1 of the pieces Design a. This is a back piece. Join the back piece to Design b.

Join the other Design a to the other side of Design b. Now join the Design c pieces to the short sides of Design b.

Now join the corners to complete the box. Place the other half of the magnetic clip or press stud to the front of the box.
