FSL Heirloom Wing Needle Lace Edgings

Note: If your needle moves when you switch your machine on, don't put the wing needle in until your machine is switched on and the needle has adjusted itself.

If you are unsure if your machine can take a wing needle, please check with your dealer first.

When using a wing needle, please use an embroidery foot with a biggish hole.

The Bernina Artista tear drop foot does not work with the wing needle so its suggested that the no 9 darning foot or the no 15 embroidery foot is used.

I used the no 9 darning foot on my Bernina Artista to stitch out the wing needle designs.

Materials

Water soluble stabilizer

Linen fabric

Wing Needle

Ribbon (optional)

Embroidery Thread

Now to Create Your FSL Heirloom Wing Needle Lace

Prepare your fabric by marking where the design is to go. Hoop 2 layers of water soluble with your piece of fabric. Load your design on your machine. Put the wingneedle into your machine and stitch the first color. Change your needle to a regular needle and stitch out the design until the filled areas of the flower and leaves are done. Directly after the flower is stitched out, there is a running stitch which marks for cutting of fabric. Stitch this running line.

Threads n Scissors

Remove the hoop from the machine and trim the fabric as shown in the photo.

Stitch out the remainder of the design. Continue place more designs next to each other until the desired length is reached. Remove the water soluble stabilizer. Thread ribbon through the ribbon holes on the designs that have them.
