FSL Heirloom Wing Needle Lace

Note: If your needle moves when you switch your machine on, don't put the wing needle in until your machine is switched on and the needle has adjusted itself.

If you are unsure if your machine can take a wing needle, please check with your dealer first.

When using a wing needle, please use an embroidery foot with a biggish hole.

The Bernina Artista tear drop foot does not work with the wing needle so its suggested that the no 9 darning foot or the no 15 embroidery foot is used.

I used the no 9 darning foot on my Bernina Artista to stitch out the wing needle designs.

Now to Create Your FSL Heirloom Wing Needle Lace

Hoop 2 layers of water soluble with you piece of fabric. Load your design on your machine. Stitch the first 3 color of the design. The first 2 will create the FSL Lace pieces. The third marks where to place your fabric. Place your fabric over the design and stitch the 4th color.

Materials

Water soluble stabilizer

Linen fabric

Wing Needle

Ribbon (optional)

Embroidery Thread

Threads n Scissors

Change the needle to the wing needle. Stitch the 5th color.

Trim fabric. Change needle back to embroidery needle and stitch out the remainder of the design. Remove the water soluble stabilizer. Stitch out as many pieces as you require and sew the pieces together. Thread ribbon through the ribbon holes on the designs that have them.
