

Threads n Scissors

FSLace Book Corners

Method

Hoop two layers of water soluble stabilizer. Stitch out 2 pieces of the design (ie 2 x Design 1 etc)

Rinse out the water soluble stabilizer but don't soak too long as you want the book corner to be firm. Lay flat and allow to dry.

To Assemble

Using a 4.5mm zig-zag stitch on your sewing machine, stitch the pieces together along the straight edges, right sides facing out. Your book corner is now ready to use. Simply slide the corner of the page you want to mark into the book corner.

Materials

Water Soluble Stabilizer
