Instructions for Coat Hanger Covers

Method

Stitch out 2 of the two pieces used one left and one right piece. Total pieces stitched are 4

Use this method to stitch out all 4 pieces

Hoop two layers of stabilizer. Stitch the first color. Place a piece of batting and a piece of satin fabric over the stitched area and stitch the next color.

Trim fabric from around the stitching and stitch the rest of the design until the last two colors. Don't stitch these.

Place a piece of poly cotton fabric under the hoop and stitch the second to last color. Trim fabric from under the hoop and stitch the last color.

Materials

Water Soluble Stabilizer

Satin Fabric

Poly cotton fabric

Thin batting

Ribbon

Coat Hanger

To assemble the coat hanger cover

Using a zig-zag stitch on your sewing machine, stitch the left and front pieces together . Do the same with the other two pieces.

Cut open button holes and thread ribbon through. For those with one , two or three button holes, tie a bow for each pair..

With right sides facing out, stitch to two pieces (front and back) of the coat hanger cover together, leaving an opening in the middle to allow the coat hanger hook to go through.

Rinse out stabilizer and allow to dry.
