Instructions for Stumpwork Woodland Fairies

Method

Hoop 1 layer of water soluble stabilizer. Cut two pieces of organza. Put both pieces of organza onto stabilizer and stitch first color of design 1. Cut away organza from around the design and stitch last color. Remove stabilizer from design.

Materials

Water soluble stabilizer

Cut away stabilizer

Cotton fabric

Organza

Magic Tape

Once the wing is made now to make the rest of the design.

Hoop 1 cutaway stabilizer and fabric. Stitch the first color of design 2. This marks where to put the wing. Place the with over the stitching. Use magic tape and tape the wing in place. Cut a piece of water soluble stabilizer and place over wing and area where the fairy is going to be stitched. This just helps prevent the foot hooking the wing while stitching. Now stitch the rest of the design.
