Stitch out the design but don't stitch the last color. Remove the mylar and tearaway stabilizer. Stitch the last color. I used my tweezers to remove the small bits

Now to make the card

Fold a piece of normal cardstock in half. Cut out around the Mylar Quiltblock. Using double sided tape, cut about 5 pieces and place it to the back of the Mylar Design. Now place the Mylar design onto the front of your card. Using color pens, add extra detail such as holly leaves and berries to the card.
