Enjoy Your Inspiration!!!

Tulle or Fabric Lace Neckline Appliques

This lesson, the design has been stitched on tulle. If you want to stitch it on poly cotton, just replace the tulle for poly cotton.

The designs have color stops in them. I used 1 color throughout the entire design.

Hoop up 1 to 2 layers of water soluble vilene. Stitch the first color. Remove the hoop from the machine. Lightly spray the vilene with temporary adhesive spray and place a piece of tulle over the stitched area. Now just stitch out the rest of the design. When it is completed, cut the excess tulle away from the design. Soak the piece to remove the stabilizer. Lay the piece flat to dry. You may need to lightly press the piece before using it. You can add hotfix crystals to it or sew on beads or pearls too, to bling it up. Now just add to your garment!!!

Materials

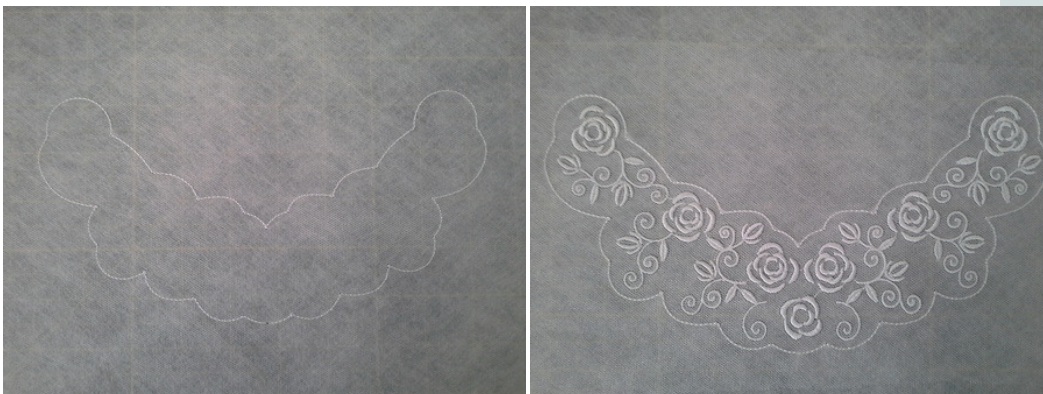

Water Soluble Vilene

Tulle or poly cotton

Embroidery Thread of choice

Matching Bobbin

Temporary Spray Adhesive
