Vinyl Edgings and Corners Embroidery

Vinyl Shelf Lining can be found at most fabric shops. It can be used not only to line shelves but for tray cloths, table runners, coasters and many other projects.

When creating a project where the design is going right around, use placement to create the perfect edging.

These instructions are to stitch on the vinyl

Method

Hoop 2 layers of water soluble. Place the vinyl onto the stabilizer. You can use painters tape or temporary adhesive spray to keep the vinyl in place. Check the placement of the design. Stitch out the chosen design. Continue to stitch out the required designs to create your project. When complete, cut around the edgings and corners and remove the stabilizer.

Materials

Water Soluble Stabilizer

Temporary Adhesive Glue (optional)

Vinyl Shelf lining
